

<b>SELF MANAGEMENT CHECKLIST</b>	<b>Client:</b>
<b>RBT:</b>	
<b>Date:</b>	<b>BCBA:</b>

<b>Implementation</b>	<b>Yes-No-N/A</b>
BT/RBT prompts client to self-record accurately at the appropriate time	
BT/RBT reinforces all accurate self-recordings at the appropriate times	
BT/RBT fades prompts as needed	
BT/RBT prompts learner to gain access to reinforcement when appropriate criteria is reached	
When modelling, BT/RBT appropriately models correct behavior.	
BT/RBT collects accurate data	
BT/RBT reinforces all correct demonstrations of the behavior	
When applicable, BT/RBT provides learner with cues that signal when the client should use the self-management system.	
Scoring instructions: count total number of "Y" and "N" (exclude any N/A) then take the total number of "Y" and divide by the total number of items that scored either Y/N and multiple by 100.	
(Y/ (total y/n responses)) * 100
